DESIGNED BY

Carlos Guijarro

Treviso collection is designed by Carlos Guijarro. His design ethos is driven by a commitment to experimentation and purity, drawing inspiration from Bauhaus and Suprematism. Noble and refined materials are at the core of this creative process. His work reflects a melding of formal geometrics which harmonize traditional craftsmanship with cutting-edge digital techniques. Since 2022, Guijarro runs his own design studio, where he explores the interplay between digital and physical spaces, continually pushing the boundaries of design.

Treviso's aesthetics recall a sculptural artwork. The tables are composed by robust bases and rounded tops that create an intriguing contrast of volumes.

TREVISO TABLE

Ø55x54cm

Travertine marble | Burgundy lacquer

New finishes. Treviso

Treviso is an iconic collection that comprises three sculptural tables which revisit classical architecture from today's aesthetic perspective. Starting from the use of travertine marble, they take inspiration from the details and proportions in Italian classical architecture, looking to enhance the purity inherent to the material. The roundness of the legs and the use of travertine are reminiscent of classical art, whereas the organic and rounded shapes of the top provide a contemporary vision.

TREVISO TABLE

128x57x40cm

Sand lacquer

The three tables in Treviso collection are composed of a circular or organic-shaped top with a rounded edge, and two or three round-shaped legs. Circular tables have a symmetrical composition and their legs are turned at the same angle, which creates a visual and stylistic cohesion at the collection. Meanwhile the table with an organic-shaped top is asymmetrical and provides dynamism to the whole. Lower tables have three legs and the taller table has two.

On the left page, Treviso 128x57x40cm, Treviso Ø55x54cm and Treviso Ø100x40cm in travertine marble.

Treviso 128x57x40cm and Treviso Ø55x54cm in travertine marble.

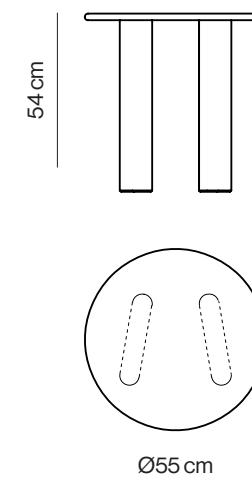

Besides from travertine marble, Treviso tables are available in matte or gloss-lacquered MDF. Two materials that provide a very different aesthetic, showing the versatility of the furniture pieces and making them perfect for spaces of diverse characteristics and styles.

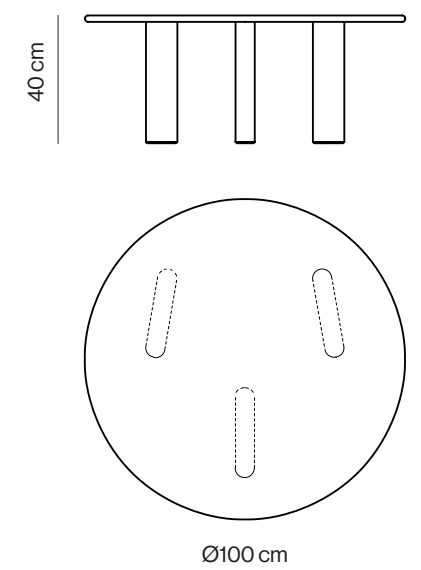

The collection is composed by three tables, two of them round and an organic-shaped one. They can be finished wether in matte or glossy lacquer, or in travertine marble.
